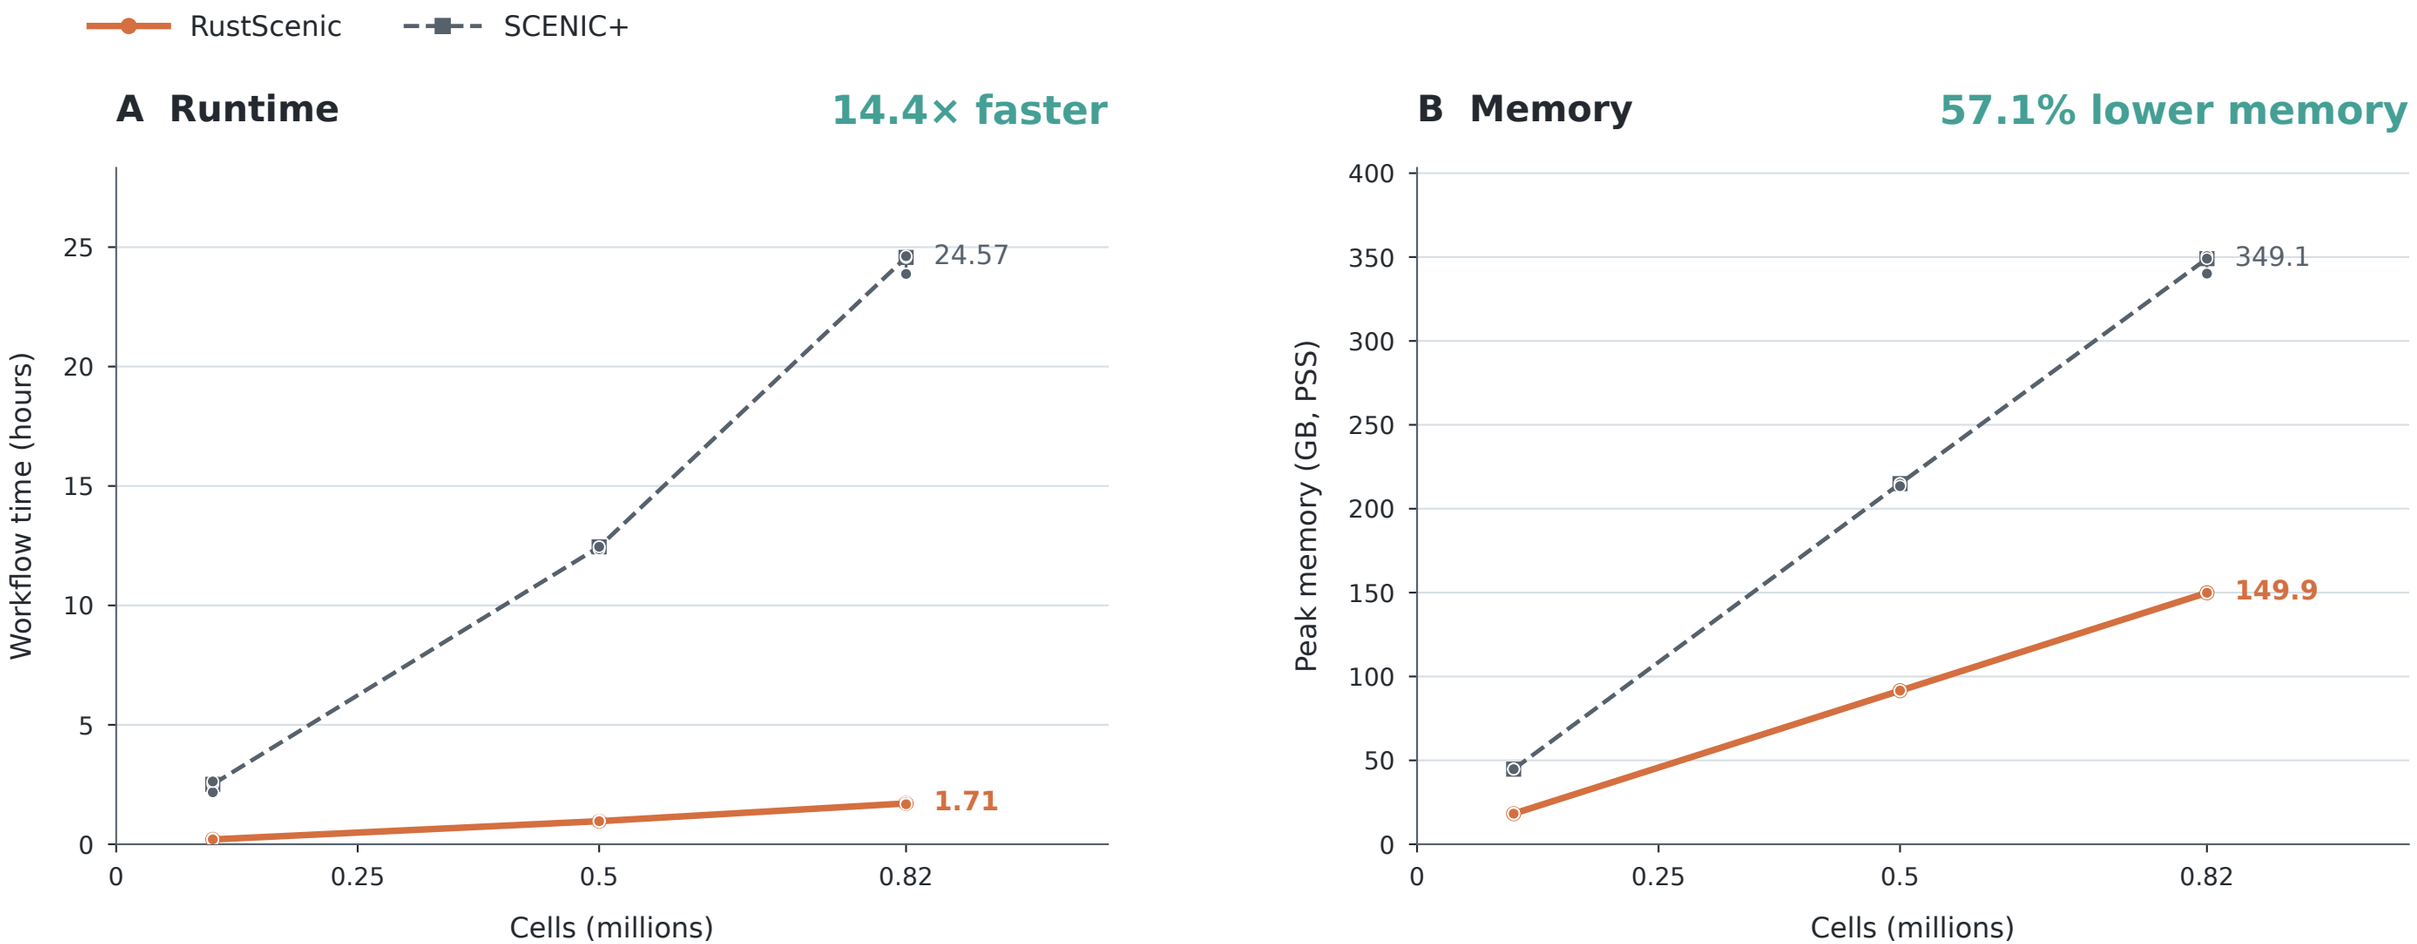
RustScenic: scaling to 817,740 paired RNA + ATAC cells

5,000 genes · 20,000 regions · 256 TFs · 16 CPU cores



Gains vs SCENIC+ at 817,740. Three seeds per size. Points: runs; lines: medians.

Prepared inputs through export; raw preparation excluded. Algorithms and outputs differ. CPU models vary across sizes.
